National competition

"Mihai Eminescu" Secondary School, Alexandria, Romania

On 12 May 2025 ,our school proudly hosted the National Award Competition of Community Science Projects – “Ideas That Change the Community”.

The event brought together 44 creative and motivated students aged 12-14 years old from 5 schools in Romania, who presented 11 projects addressing climate change challenges with practical, digital, and imaginative solutions aimed at improving their communities.

The gathering celebrated teamwork, imagination, and commitment to local development. Together, they proved that ideas can turn into actions for a greener future.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

The projects were evaluated by professionals in the field: representatives of county institutions in the field of education, a representative of the County Environmental Protection Agency, and teachers.

The awards consisted of various tools and materials through which students can continue working to develop community science projects.

The team that won first place will participate in the International Award Competition, which will take place between May 27–29, 2025, at Hristo Smirnenski Secondary School, Rakovski, Bulgaria.

We wish our students the best of luck!

The awarded projects were:

1st place - "Breathe or pollute?"

Daria,Alexandra,Alexandra,Ianis,Emi

2nd place - "New life for plastic-creative flower pots"

Ana,Sara,Lucas,Damian

3rd place - "EcoDetectives"

Ranya,Ayan,Gabriela,Roxana
